- 7 Recent Membership Actions
- 7 New Members
- 7 Membership Advancements
- 7 Membership Resignations

## BICENTENNIAL CONVENTION HIGHLIGHTS 200±

From our nation's modest beginning two centuries ago to the Institute's pre-eminent role as a force in the field of architecture today, we, as architects, have much to be proud of with our accomplishments. True, during the 19th century much of our growth was influenced by the training and examples set by our European counterparts. While an American architecture began to develop in the late 19th century, the early 20th century movements were still heavily influenced by imports from Europe. In post World War II, America emerged as a dominant force in architectural design.

Much as we can be proud of our past heritage and achievements, we must stop and think and ask, "What is it all about?" Recession, energy shortage, re-use of our resources, concern for our environment, bigness in business are but some of the problems the profession must face today. What is the Architects' part in solving these problems? Must quality of design take a back seat in order to meet the growing complexity of life?

The Convention Committee sought speakers who could address various aspects of our concerns, not so much as to present solutions but to stimulate your thoughts and to challenge you to build on our heritage, seek a dialogue to find solutions for our many challenges.

Keynote luncheon speaker on April 7th will be Peter Blake, F.A.I.A., Chairman of the Boston Architectural Center, former Editor-in-Chief of "Architecture Plus" and Editor of "The Architectural Forum." Mr. Blake, in his straight forward manner, will lead off the convention speaking to the Bicentennial Theme on the subject, "A Modern Architecture Re-Visited". The first seminar speaker on April 7th will be Giorgio Cavaglieri, F.A.I.A., of New York City. Mr. Cavaglieri is in private practice and active and experienced in Historic Preservation and adaptive reuse of buildings. Known for his humor, as well as indepth discussions, his topic "Buildings of the Past Become Projects of the Present" will be timely and informative.

The opening seminar on April 8th, will highlight Dean Ralph Knowles, Dean of the School of Architecture and Fine Arts of the University of Southern California. Dean Knowles' topic will center on the subject of his recently published book titled "**Energy and Form-A Contemporary Design Determinant and Its' Influence**". Friday, August 9th, the seminar will touch on design and economics with Dr. Rodolfo J. Aguilar, President of Corporate Development Group, Inc., Baton Rouge, Louisiana. Additional information concerning the speakers will be provided in the March issue.

The beautiful setting of The Abbey on Lake Geneva will provide an excellent setting, not only for the speakers, but for additional activities including the 1976 Awards Dinner, special showing of new AIA movie "Conversation With An Architect", a show of slide presentations for your use, the annual meeting of WSA/AIA. In addition, a night of fun with the New Hyperion Oriental Fox Trot Orchestra concert and dancing and highlighted with an original architectural crazy hat contest.

Registration forms are in the mail and it is to your advantage to send in early registrations, taking advantage of the discount for early registration. A room reservation card for The Abbey will also be included in your registration mailing.

## CONVENTION EXHIBITS

An excellent lineup of supplier exhibits is being planned by the Convention Committee. Exhibitors are listed below. Serving this year as Exhibitor Representatives on the 1976 Convention Committee are Jim Donovan, Donovan Equipment Company; Jim Osborne, Osborne Brick; James Kurtz, Toepfer, Inc. and Ron Yeisley, Halquist Stone.

American Air Filter Co., Inc.  
American Institute of Steel Construction  
Architectural Woodworking Institute  
Barcol Overdoor Co., Inc.  
Best Block Company  
Bethlehem Steel Corporation  
Bradley Corporation  
Can-Tex Industries  
Cornell Corporation  
Cornell Iron Works, Inc.  
Cronstroms Manufacturing, Inc.  
Dau Wallcoverings  
Donovan Equipment, Inc.  
Duwe Precast Concrete Products, Inc.  
Gulistan Carpet by J. P. Stevens  
Halquist Stone Company, Inc.  
Ink-Smith, Inc.  
Kawneer Company  
Klein-Dickert Company, Inc.  
Krueger  
Lees Carpets  
Mid-State Concrete Products Co.  
Milwaukee Insulation Co.  
Neidhoefer & Company  
Northwestern Elevator Co., Inc.

Osborne Brick Company  
 Owens-Corning Fiberglas  
 Paddock Pools  
 PCS Sales, Inc.  
 J. W. Peters & Sons, Inc.  
 PPG Industries  
 School Equipment Consultants, Inc.  
 Sheboygan Glass Company  
 Snow-Larson, Inc.  
 Spancrete Industries, Inc.  
 Standard Dry Wall Products  
 Streator Brick Systems, Inc.  
 Super Sky Products, Inc.  
 Taylor Electric Company  
 Toepfer, Inc.  
 Triangle Components  
 Unistrut Wisconsin  
 Ver Halen, Inc.  
 Vetter Manufacturing Company  
 Waukesha Block Co., Inc.  
 Western Moulding Co., Inc.  
 Wisconsin Face Brick & Supply Corporation  
 Zoll Stone Center, Inc.

#### **CURRENT LEGISLATIVE ACTIVITIES**

The Wisconsin Legislature is back in session for their final floor period of the 1975-76 legislative session, and will be considering several bills of interest to the WSA.

Recently, the Senate Judiciary Committee took executive action on SB 600 (reinstating the Statute of Limitations), defeating an amendment that would have increased the proposed limitation period from six years to eight years, and adopting the original bill as introduced. The efforts of the many WSA members in more fully informing members of the Legislature as to the important considerations of SB 600 has been helpful to the legislators and the WSA in securing committee action on the bill. SB 600 is now before the Senate Scheduling Committee, and is expected to receive full consideration by the Senate during the second or third week of February. If we are able to secure prompt and favorable Senate action, an attempt will be made to secure Assembly passage of the bill prior to final adjournment of the Legislature in March.

Senate Bill 483 (limiting the testing period of candidates for registration of 16 hours) remains before the Assembly State Affairs Committee, awaiting the report studying the current examination process. An amendment may be introduced amending SB 483 to delete the 16 hour maximum testing period, which amendment will continue the primary authority in the Board of Architects to determine the length and content of the examination.

Two additional bills have recently been introduced. AB 1309 requires that an energy impact statement containing an estimate of the amount of energy to be used in the construction and the future maintenance of any building or road be filed with DILHR by any party constructing a building or a road. AB 1221 requires office buildings to have windows that can be opened. Neither of these bills have received committee action to date, but both have been added to the list of those bills being monitored by the WSA Legislative Committee.

## EXECUTIVE COMMITTEE ACTIONS

Richard P. Blake, AIA, conducting his first Executive Committee Meeting as President of the WSA welcomed the newly elected members to the Executive Committee. Under the new By-Laws, the four Chapter Vice-Presidents/President-Elect and the three newly elected Directors-At-Large start their terms as of January . . . Blake outlined his goals for the year in terms of membership expansion, legislative effort and the continued strengthening of the committee structure of the Society which was initiated this past year . . . Plans were reviewed concerning the Mini-Grassroots Meeting in Green Bay, Wisconsin. This is an annual event which will bring together the leadership of the WSA/AIA, i.e., Society Officers, Executive Committee, Chapter Officers and Society Committee Chairman. President Blake headed up a delegation to the National Grassroots Program in Minneapolis where national and local leaders discussed the important issues to the profession as well as picked up ideas on programming for the coming year. This will be shared at our Mini-Grassroots with the Wisconsin leaders. . . . Reports to the Executive Committee are that the Legislative Minuteman Program is working well with 72 Minutemen registered to date. If you are not registered, please do so and participate in this important effort this year.

## "HISTORIC WISCONSIN" TO BE RE-PUBLISHED

A Bicentennial project of WSA/AIA through its' Historic Resources Committee, chaired by Gordon D. Orr, Jr., AIA will be the updating and printing of the booklet "Historic Wisconsin Architecture", published by the Wisconsin Chapter of the AIA in 1960. The original book was compiled by member Richard W.E. Perrin, F.A.I.A. Mr. Perrin has agreed to update the book for the new printing. Orr, along with Jeff Dean of the Wisconsin Historical Society and an Associate WSA member will cooperate with Perrin in the updating. Copies of the original book have long been exhausted and the demand for this kind of publication was evidenced by continual requests to the Society Office and members of the Historic Resources Committee. Publication of the updated version is expected toward the end of the Bicentennial Year. As before, the booklet will be sold to support the cost of its' publication.

## WARNING

We have received word from several AIA members in regard to a solicitation and billing from an Arizona Advertising Company for a listing in a "National Architects Directory." Architects are billed for \$290.00 for the listing which they never did authorize. This directory is not recognized by the AIA, nor did the Institute have any knowledge of it when reported by the WSA office. The Institute is investigating what appears to be a fraudulent scheme. Please be alert to this kind of solicitation and billing.

## APPOINTMENTS TO NATIONAL AIA

G.A.D. Schuett announced that there were 49 appointments to National Committees in the North Central Region which represents Wisconsin, Minnesota, South and North Dakota. The following were appointed to National AIA Committees from Wisconsin:

Continuing Education Committee, Robert M. Beckley, AIA;  
Environmental Education Committee, Alan J. Carlson;  
Architecture for Arts and Recreation, Ronald G. Bowen, AIA;  
Architecture for Commerce and Industry, Drake W. Rowe, AIA  
and John E. Somerville, AIA;  
Architecture for Health, Mark A. Pfaller, FAIA;  
Architecture in Industry, Richard P. Griffith, AIA;  
Design Committee, Elfa O. Foldi, AIA;  
Historic Resources, Gordon D. Orr Jr., AIA and  
Leonard M. Schober, AIA;  
Urban Planning and Design Committee, Maynard W. Meyer, FAIA;  
Project Management Committee, Carl H. Gausewitz, AIA; Office Management, John P. Jacoby, AIA, Uel C. Ramey, AIA  
and Douglas H. Smith, AIA;  
Benefit Insurance Committee, James G. Plunkett, AIA

This year a new position in the region was established, that of Director-Elect. This position was established upon recommendation of the Institute, especially in Multi-State Regions where distance is a problem for the Regional Director. Elected this past fall at a Regional Meeting, was S. C. Smily, AIA of Minneapolis. Mr. Smily presently serves as Director-Elect and will become Regional Director for the North Central Region when G.A.D. Schuett completes his term in 1976.

## ASHRA SEMINAR ON STANDARD 90-75

The American Society of Heating, Refrigeration and Air Conditioning Engineers, Inc. is presenting a one day seminar on the contents and application of Standard 90-75 Energy Conservation on new building design. The meeting is scheduled for February 25, 1976 at the Sheraton Mayfair Motor Inn, 2303 North Mayfair Road, Milwaukee, Wisconsin. Speakers include David Berg, Honeywell, Inc.; C. Wayne Jennings, Iowa Illinois Gas and Electric Company; Robert Lundholm, The Schelbler Company; Sam Wray, Kimmel-Jensen-Wegerer-Wray. Registration fees are \$35.00 for ASHRA members and \$70.00 for non-members. Send registration fee to ASHRA 90-75 Seminar C/O Fred C. Schulz, P.E., 6659 North Sidney Place, Glendale, Wisconsin 53209.

## NEW MEMBERS

The following membership actions were taken by the WSA/AIA Executive Committee at their January 8, 1976 meeting:

JOHN H. CAIN — Student Associate of the Southeast Chapter;  
GARY A. KRETCHMER — Student Associate of the Southeast Chapter;  
GARY A. PACHUCKI — Student Associate of the Southeast Chapter;  
EDWIN A. SANBORN — Professional Affiliate of the Southwest Chapter;

## MEMBERSHIP ADVANCEMENTS

LAWRENCE R. EARLL — Advanced to Associate member of the Southeast Chapter;  
JULIUS S. SANDSTEDT — Advanced to Emeritus membership in the Northeast Chapter;  
EDWIN A. WAGNER — Advanced to Emeritus membership in the Southeast Chapter.

## MEMBERSHIP RESIGNATIONS

WILLIAM H. OTTEN, Professional Associate in the Southeast Chapter;  
RUDOLPH RECHLE, Associate member in the Southwest Chapter;

## KEY WORD DIRECTORY TO INSTITUTE ACTIVITIES

The following list is provided for those who wish information, opinions, or analyses on the indicated subjects from Institute staff in Washington. If in doubt dial Institute general information 202-785-7300.

SUBJECT	STAFF	TELEPHONE (202 area code) (785 exchange)

## Three good reasons for selecting Weil-McLain

**THE CHOICE** — Choose from a complete line of oil, atmospheric gas, and combination gas/oil boilers, from 187,800 to 6,060,900 BRU/Hr.

**THE FLEXIBILITY** — Match any job requirement with a choice of factory-tested packages, factory-assembled sections or individual sections.

**THE QUALITY** — Only Weil-McLain has such quality features as flame-retention oil burners, asbestor rope seal,

short draw rods, multiple tankless water heaters, forced draft firing and, of course, cast iron construction.

Choice, flexibility, and quality... three good reasons for contacting your nearest Weil-McLain distributor.

# Bomanite:

## concrete with character

**Bomanite,**  
the patterned concrete,  
brings new dimension to  
concrete surfaces.

**Bomanite**  
is an attractive surface  
with the appearance and  
character of brick, tile,  
or cobblestone,  
in a wide variety of  
colors, patterns, and textures.

**Bomanite**  
is a proven process,  
widely used around the world  
for malls, sidewalks, crosswalks,  
and other interior-exterior  
paving applications.
